Docket No. 98N-1265
Food and Drug Administration
5600 Fishers Lane
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I have been subjected to the "one-size-fits-all" medicines promoted by the large pharmaceutical companies & never want to endure that again. Neither does my husband! It is only through individually compounded medication that I have returned to my good health. How can you possibly dream of limiting law-abiding, tax paying citizens from getting the medications they need. Sounds like restraint of trade to me as well as government intervention into private enterprise solely for money. Shame on you!
